

**Social Scene** from name to design embodies the infinite life connection between creating a social scenery (visual content) to connect you with your audience.

### **Who We Are?**

An innovative social & experiential marketing company (online and on-premise) building content to grow relationships with your target audience through events, community engagement, social media and customer relations.

### **Event Planning and Logistics**

Social Scene works with you to develop a custom concept to connect your target audience to your brand; all at competitive industry pricing. Let us manage all the moving pieces as we plan, produce and execute your next online or on-premise experience.

### **Let's Get Creative**

Our goal is to open your world to connect with new & current clients & colleagues through a different experience; created with you, but managed by us.

**Social Scene** from name to design embodies the infinite life connection between creating a social scenery (visual content) to connect you with your audience.

### **New Clients?**

Meetings and calls have become the norm, but let us make an impression to be remembered. We will create an interactive and memorable experience to invite that potential client, provide a setting where you can truly get to know their issues and concerns all while creating a tangible connection and memory.

### **Current Clients**

Maintaining the relationship with current clients is imperative. Sure, connecting over a local game or private dinner has its perks, but imagine an event in which the community, your staff and current clients have the opportunity to connect during an interactive & new experience in a new space. We will present the ideas, you approve the details and we work to make it a reality.

### **Community & Charity**

Want to actually see the impact and receive exposure for your efforts within the community? Do more than just write a check. Let us create an experience to give back and generate exposure for your company's values and initiatives.
